Experience

[Web development]

I have more experience in web development, including completing an internship with Interns.pk. I have worked on several projects using HTML, CSS, and JavaScript, and I am currently furthering my skills by learning PHP and database management

[C++]

I have 2 years of experience in C++. During this time, I completed a C++ course through Great Learning. I have also worked on various projects using C++, including a gaming project, a bank management system project, and a Sudoku game project

[Python]

I have 1 year of experience in Python. During this time, I completed a Python course on freeCodeCamp, where I worked on multiple projects.

[Google UI/UX]

Completed Google's UI/UX courses, gained expertise in user-centered design principles, collaborated on real-world projects, applied user research, created wireframes, mockups, and prototypes, and developed a deep understanding of Google's design philosophy. Proficient in design tools, presented concepts, and contributed to user-friendly features.

[Graphic Design]

I am a graphic designer and illustrator with over two years of experience in the world of design. I have leveraged my proficiency in Adobe InDesign, Photoshop, and Illustrator. During my experience, I completed internships in graphic design with Printifyz and Internee.pk. In these internships, I designed various projects, including business cards, posters, flyers, and social media posts.
